

# K I S H E M - 2

*High Energy Material Research Center(HEMRC) is pleased to host*

2nd Korean International Symposium on High Energy Materials  
from September 17 to September 20, 2012  
in Inha University, Incheon Korea

Dear Colleagues,

We cordially invite you to participate in this International Symposium. The main theme on High Energy Materials will be discussed in several topics for which you could find the detailed information on the Symposium Website:

Homepage: <http://www.kishem.co.kr>

The due date of Registration and Submission of Abstract is extended until May 31, 2012. You can register and submit abstract by online. You can also request a formal letter of invitation from the Registration page if necessary.

Registration: <http://www.kishem.co.kr/page.asp?scr=kishem&branch=regist>

Please do not hesitate to forward this information on to your colleagues and any other relating partners.

Looking forward to seeing you in Incheon, 2012.

Sincerely yours,

The Organizing Committee

## International Organizing Committee

Prof. Hai Whang Lee, Inha University, Korea  
Dr. Manfred A. Bohn, ICT, Germany  
Prof. Jose' L. Andrade Campos, Universidade de Coimbra, Portugal  
Dr. Adam S. Cumming, DSTL, United Kingdom  
Dr. Patrick Goede, FOI, Sweden  
Prof. Shigeru Itoh, Okinawa National College of Technology, Japan  
Dr. Inho Kim, Agency for Defense Development, Korea  
Dr. Wim de Klerk, TNO Defence, The Netherlands  
Prof. Mitsuo Koshi, University of Tokyo, Japan

## Topics

- Propellants
- High Explosives
- Insensitive Munitions
- Ageing
- Performance
- Synthesis
- Characterization
- Nano-Materials
- Improvements
- New Technologies
- Manufacturing
- Detonation
- Physical Properties
- Theory
